

AMSTRAD

... the range with
advanced technology -
supreme in its value

HPS6A

Amstrad HPS6A Stereo Headphones for the discerning listener - provides unbelievable faithful reproduction with a wide sound range between top treble and deep bass and exceptional holding qualities in the mid range.

£9.95 recommended retail price.

Features include: • Frequency Response: 20-25,000Hz
• Impedance: 4-16ohms • Individual volume control on each Ear Cup for precise balancing of channels • Comfortable padded ear cups and adjustable headband • Mono/Stereo Switch - generous length coiled flex fitted with jack plug.

HPST7A

2-way professional headphones with woofer and tweeters.

A high sound level through normal speakers can often be the cause of distortion. Amstrad HPST7A headphones enable you to overcome this problem and at the same time isolate yourself from the cacophony of outward sound sources and interference.

£12.95 recommended retail price.

Features include: • Frequency response 15-35kHz • Impedance: 8-16 Ohms each channel • 4 separate slider balance controls for treble and bass • Adjustable padded headband and earcups • Generous length coiled flex fitted with jack plug.

HPS5A

Amstrad HPS5A headphones, by enveloping the ears, provide more distinct sound levels free from distorted sound values projected by normal speakers due to the character of the accoustical surroundings and enables the listener to enjoy concert hall realism, at any volume, in total privacy.

£6.95 recommended retail price.

Features include: • Frequency response: 20Hz to 20,000Hz
• Rated impedance: 8-16 Ohms. Individual volume control on each side means control from your chair.
• Adjustable and luxuriously padded headband and ear cups.
• Mono/stereo switch.
• Generous length coiled flex fitted with jack plug.
